<b>Location:</b>	Binley, Coventry. Team-led hybrid working arrangements apply.		<b>Working Hours:</b>	35
<b>ABOUT THE ROLE</b>				
<p>Why should you come and work for an IT Development department within a Building Society? Well we're evolving and growing. And that brings changes to everything we do. We're taking a good look at what we do and how we can do it faster. More efficient.</p> <p>We build things here. We make things better. We don't accept the status quo. It's the way work should be, and perhaps a little bit of whatever you want.</p> <p>Where do you come in? We want you to help us make our evolution a success. Bring your experience. Bring your passion. Bring your drive. We want it all.</p> <p>What you'll be doing:</p> <ul style="list-style-type: none"> <li>▪ Challenging and improving our CI/CD processes, tools, and approach</li> <li>▪ Collaborating with development, testing and operations teams to streamline workflows and optimize pipeline efficiency.</li> <li>▪ Sharing your expertise</li> </ul>				
<b>ABOUT YOU</b>				
<p>What we'd like to see:</p> <ul style="list-style-type: none"> <li>▪ Demonstrable knowledge of and related experience within software development environment</li> <li>▪ Working in Agile environments, preferably SCRUM and using tools such as JIRA</li> <li>▪ Code and version control using GitHub or equivalent.</li> <li>▪ <a href="#">Good level of expertise in SonarQube/Cloud, including knowledge of installation, Configuration and maintenance</a></li> <li>▪ Experience in Jenkins, GitHub Actions, or another CI/CD tool</li> <li>▪ <a href="#">Familiarity within containerization and orchestration of tools such as Docker &amp; Kubernetes</a></li> <li>▪ </li> </ul> <p>What would be nice to have:</p> <ul style="list-style-type: none"> <li>▪ Understanding of Digital.ai Release/Deploy</li> <li>▪ Understanding of Cloud Technologies, preferably AWS – ECS, EKS</li> <li>▪ Experience of security integration scanning tools such as Snyk into CI/CD pipelines</li> <li>▪ Experience of maintaining pipelines using tools such as ArgoCD, GitHub Actions or similar technologies</li> </ul>				
<b>REQUIREMENTS:</b>				
Software development experience in a commercial environment
